

Press Release:

At approximately 1:00 pm this afternoon, a student at the Triton Regional Middle School reported to the principal that he had seen another student with a firearm. Following the school emergency plan, Principal Fulgoni immediately called the Newbury Police Department. The student was identified and the firearm was secured. Working cooperatively with the Newbury Police Department it was determined that there was no further threat to the safety of the school. The student was taken into police custody and will face appropriate disciplinary actions.

The Triton Regional School District, the Newbury Police Department and the District Attorney's office are currently investigating the incident. Please be advised that a press conference will be held at entrance to the Middle School/High School campus tomorrow morning at 8:00. At that time, a statement will be made by Principal Fulgoni. As this is an ongoing investigation, we will be limited in our ability to answer questions.
