Dear Parents/Guardians,

As you may know, the Triton Regional School District is in the process of developing a District Improvement Plan. The district administrative team has been compiling demographic data for the plan. With this data we are answering the basic question, "Who are we?" The answers to the question, "Who are we?" set the context for the district, have huge implications for the direction the continuous district improvement plan will take, and can help explain how the district gets the results it is getting. The second question in our continuous district improvement planning model is "How do we do business?" This question helps us understand organizational culture, shared assumptions, beliefs, and typical behavior. How the district does business can be ascertained through studying student, staff, and parent questionnaire results.

Faculty and staff completed questionnaires during the month of December. At this time, we will be surveying students in grades 3 – 12. Students will be completing on-line surveys that are comprised of 28 – 33 questions and should take approximately 10 – 15 minutes to complete. The timeline for the completion of the surveys is January 8th to January 18th with the exception of the high school. Due to mid-term exams, high school students will participate in the survey from January 30th to February 9th.

A parent survey will be conducted from February 6th to February 16th. At the elementary level, the survey will be sent home with your child. At the middle school and high school, the survey will be mailed to you with your child's report card. If you have more than one child in the district, please complete a survey for each school your children attend. Please return your survey to the main office of your child's school.

Please do not hesitate to contact me should you have questions regarding this matter.

Sincerely,

A handwritten signature in blue ink that reads 'Sandra J. Halloran'.
