### Restoration Summary - Restorations to 2/11/2009 Initial Budget

**Overview:**

The positions listed below have been restored in this updated version of the FY10 Initial Budget at a cost of \$675,985. In addition to these restored positions, this revised budget also includes increased costs for Medical Insurance (\$150,000) that will be realized as a result of these positions being restored.

Along with the increased costs of restorations as noted above, there are also savings due to the decreased unemployment costs (\$197,101) associated with those proposed reductions that will not occur. Also, included as additional savings are the raises for the Administrative Team (\$43,559) that were originally included in the 2/11/2009 Initial Budget.

These changes are highlighted on this page, but are reflected with updated total cuts lists on pages 8 through 11 as well as in the appropriate line items throughout the budget document.

### CIRCUIT BREAKER/OUT OF DISTRICT CALCULATIONS

The "Circuit Breaker" Program is a reimbursement plan through the Commonwealth of Massachusetts for costs incurred for students who's educational needs require programming which is very costly. As a true reimbursement program, FY10 Circuit Breaker projections are generated based upon actual FY09 incurred costs for students.

Per state regulations, the formula provides a 75% reimbursement rate for all costs above 4 times the foundation per student cost. This figure is set each year by the state and is \$35,408 for the current year. For example:

We have a student who's programming costs \$100,000.00,

State Foundation Per Student Cost is \$8,852 - 4 times which is \$35,408

You take \$100,000 - \$35,408 and the amount "Above Foundation" is \$64,592

Circuit Breaker reimbursement for this child is 75% of \$64,592 or \$48,444

This is calculated individually for each child. If a child's services cost \$34,000, then they do not reach the \$35,408 threshold and NONE of their services are reimburseable.

The only caveat to this formula is that, as is the case with all Massachusetts regulations, Circuit Breaker reimbursements are "subject to appropriation." This means that the state sets funding at a certain level in the State Budget and will give the greatest percentage possible to all districts with the amount appropriated.

Projected Special Education Out of District Costs	\$ 1,754,425
Projected FY10 Circuit Breaker Revenue	\$ 478,739
Budgeted in LEA - (See page 33 - Function 9000) Adjusted for new programs	\$ 1,275,686
